

Project | Bürgschaftsbank Baden-Württemberg, Stuttgart

The new building of the Bürgschaftsbank Baden-Württemberg GmbH designed by 4a-Architekten provides a space for contemporary work. It is connected to the existing buildings through a transparent foyer. The representative boardroom, furnished in high quality and functionality with the conference program Talk by Renz, offers an excellent view over Stuttgart from the top story.

SITE - new modern, open and light credenza

The new wall-mounted credenza from the SITE series sets the scene for everything you want to store and present. Its strong point is the combination of clear and reduced design, and exquisite materials. The effect is especially interesting if the dividers are chosen in a different material than the base unit, creating a contrast in design.

Along with our conference and executive programs, SITE is the fitting complement matched to the materials and surfaces of our table programs.
